

18-55mm f/3.5-5.6G ED II AF-S DX ZOOM-NIKKOR LENS

At the heart of the image™

18-55mm f/3.5-5.6G ED II AF-S DX

Features

- Ideal as a normal lens designed exclusively for Nikon DX format SLRs, this ultra-compact 18-55mm 3X zoom provides superb versatility in a wide variety of shooting situations.
- New compact rod-type Silent Wave Motor (SWM) enables ultra-high speed autofocusing with exceptional accuracy and super-quiet operation.
- ED glass element achieves minimized chromatic aberration and superior optical performance.
- Hybrid aspherical element ensures high resolution and contrast.
- Focus Mode switch enables quick-switching between A (Autofocus) and M (Manual Focus).
- 7-blade rounded diaphragm for more natural out-of-focus highlights.
- Nikon Super Integrated Coating minimizes ghosting and flare to provide higher contrast and more vivid images, even in challenging light conditions.
