NOV 2005

**PC Photo Magazine - Editor's Choice Awards
November 2005**

Wires—who needs them? Nikon Coolpix P1 users can download images wirelessly to their computers at blistering speed, thanks to built-in WiFi. The 8-megapixel Coolpix P1 has a 3.5x Zoom-Nikkor lens (36-126mm equivalent), 16 Scene modes and a 2.5-inch LCD screen. You also can print wirelessly from the camera to any PictBridge-compatible printer with an optional accessory.
