Nikon In-Camera Innovations

Makes taking beautiful pictures easy!

In-Camera Red-Eye Fix™ Automatically detects and fixes most typical occurrences of red-eye.

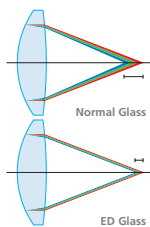

Face-Priority AF Automatically finds and focuses on people's faces to ensure superb portraits with clear, crisp focus.

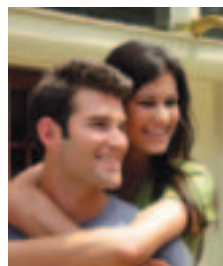

D-Lighting Compensates for underexposed images or insufficient flash by automatically adding light and detail to selected shots where needed – without affecting properly exposed areas.

3x Optical Zoom

Nikkor Lens with pro quality ED glass.

38mm

114mm

The Zoom-Nikkor ED Glass Lens gives you the power of 3x optical zoom lens, 38-114mm (35mm equivalent) while Macro capability lets you get as close as 1.6 inches. This combination is supported by Nikon's world-renowned optical technology delivering crisp, clear images.

*3x Optical Zoom-Nikkor ED Glass Lens plus
4x digital zoom equals 12x zoom range*

Small in Size, Big in Features

The exquisitely slim **COOLPIX S9** is packed with impressive features... an incredible 2.5" LCD screen, 3x zoom with legendary Nikkor optics, 6 megapixels resolution and more, wrapped in an all metal body.

Other Great Features

Powerful tools for creative fuel.

Auto Image Rotation

Pictures that have been taken with the camera held vertically are automatically rotated for in-camera LCD playback.

In-Camera Cropping

Allows you to crop out the part of the image you don't want and keep the part you like.

One-Touch Portrait Button

Offers instant access to Face-Priority AF and In-Camera Red-Eye Fix™ for optimized image capture and lets you transform exposure with Nikon's powerful D-Lighting advantage.

Noise Reduction Mode

minimizes digital artifacts in long exposures.

Saturation Mode

allows you to control the color saturation.

Date and Time Imprinting

is available to document the exact time and date that your photo is taken.

Voice Memo Function

records up to 20 seconds of sound that can then be attached to an image.

Multi Selector Display

Four direction mode selector is displayed in the LCD corresponding to the actual mode selector.

Best Shot Selector

enables the camera to take a series of photos and automatically select the one with the sharpest focus.

Blur Warning

alerts you to a blurry image.

Wider Enjoyment

with bright, oversized LCD screens.

The **COOLPIX S9** is equipped with an incredible 2.5" LCD, great for viewing images anywhere, anytime. The impressive 170 degree wide viewing angle makes it easier for everyone to see and enjoy images.

Close Up

The **COOLPIX S9** features 15 specially programmed modes to automatically handle focus, exposure, white balance and other adjustments that help you take great pictures easily. Plus 4 of the 15 scene modes come with Scene Assist which offers a selection option to help you compose your pictures with the assistance of framing guides displayed in the monitor.

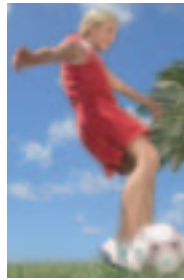

Stop Motion Animation

Start making movies!

Create your very own animated films! Just take a shot of your models, move them, then shoot again – with the new Stop-motion function producing smooth, professional-looking animation.

In-Camera Color Options & QuickTime™ Movie with Sound

Shoot a Quicktime™ Movie with sound at up to 30 frames per second.

Five color shooting options.

Direct Printing and Long Battery Life

Via Supplied USB Cable

Via Supplied Audio-Video Cable

Print directly to a printer, show on TV or upload to the web. You can transfer images directly to print without the need of a PC, when using PictBridge and USB Direct Print compatible computers. Just touch the Transfer button once to upload images to your computer using the supplied PictureProject™ software. Or hook directly to your TV and show your images on a grand scale!

The new Nikon **COOLPIX S9** has been designed so you can shoot longer and more often by increasing battery life and adding more internal memory. 24 MB of internal memory lets you shoot even more without an SD card (sold separately). On one charge of the included rechargeable lithium-ion battery EN-EL8 you can shoot up to 190 shots.

PictureProject™ Software and Great Accessories

PictureProject™ adds value to the entire photographic experience. Supplied with each and every **COOLPIX** camera, this unique, user-friendly software simplifies picture editing and makes it easy to organize and share images, while a range of available plug-ins let you expand possibilities on demand.

Fantastic Features

We thought of everything!

COOLPIX S9 6.0 Megapixels for beautiful prints up to 16 x 20 inches.

High Quality 3x Optical Zoom-Nikkor ED Glass Lens for incredibly sharp, clear images.

Incredible, Bright 2.5 Inch LCD for easy viewing and playback of pictures.

Super Slim (approximately 3/4") sleek, stylish wave design fits in your pocket.

Auto Image Rotation will automatically rotate vertical images in the camera.

Ultra-Light Weight of approximately 4.1 oz. (without battery and SD card).

Nikon In-Camera Red-Eye Fix™ automatically fixes most instances of red-eye.

Nikon D-Lighting automatically brightens the dark areas in the picture when in playback mode.

Nikon Face-Priority AF automatically finds a face and focuses on it for crisp, sharp portraits.

15 Scene Modes, 4 with Scene Assist, to guide you in taking better pictures, easily and automatically.

Longer Battery Life shoot approximately 190 images on a single charge of the included lithium-ion (Nikon EN-EL8) rechargeable battery.

Adjustable Graphic User Interface allows you to change the interface to view either the icon view or the traditional menu item view.

In-Camera Help button instantly displays an explanation for all the functions within all menus.

Take Great Close-Up Pictures with the ability to focus as close as 1.6 inches from your subject.

Movie Mode with sound available at 30 frames per second.

24MB Internal Memory allows you to begin taking pictures immediately.

Print Directly to a Printer by connecting directly to a PictBridge-compatible printer.
