The guiding principle behind every Nikon product has always been to engineer it from the inside out. By creating an optical system specific to the function of each product, Nikon can better match the product attributes specifically to the needs of the user. The result is what we call our “Optics First Design Principle,” and it applies to every optic Nikon makes.

As one of the few makers of optical glass in the world, Nikon has a unique advantage of having the knowledge and experience to specify and select the exact types of glass, lens geometry and multicoatings needed to optimize the performance of any given optic. This level of performance can be seen and appreciated when putting any Nikon optic to the test in real world conditions.

FEAR SE "FIRST SINCE 1917"

Throughout the pages of this catalog, feature and performance icons are used to help in comparing and selecting the right product for your intended use. See inside back cover for detailed description for each.

LIFETIME LIMITED WARRANTY: Nikon’s Lifetime limited warranty applies to the optical system components of Nikon Binoculars, Rangefinding Binoculars, and Fieldscopes, which optical system components are warranted by Nikon to be free from defects in material and workmanship for the lifetime of the product from the date of purchase by the original consumer purchaser from a Nikon authorized dealer.

For details, visit NikonUSA.com.

5-YEAR RANGEFINDER LIMITED WARRANTY: If any Nikon rangefinder is found to have defects in material or workmanship for the lifetime of the product from the date of purchase by the original consumer purchaser from a Nikon authorized dealer.
The MONARCH 2000 6x21 Laser Rangefinder brings Nikon’s advanced laser rangefinder technologies and an 8-2,000 yard measurement range to satisfy your long-distance ranging needs. With 1/2-yard precision**, a reflective 2,000-yard measurement range, and a nitrogen-purged, waterproof, Tru-Target Technology system, the MONARCH 2000 is up to any endeavor.

** Under Nikon’s measurement conditions and reference values. The specifications of the product may not be achieved depending on the target object’s shape, surface texture and nature, and/or weather conditions.

** Accuracy = 0.5 yd to 700 yds; 1.0 yd to 999 yds; 1.5 yds to 1000 yds and beyond.

The technology behind the Laser Rangefinder with inclinometer originated from technology incorporated in Nikon’s Total Station DTM-1 surveying instrument. The Total Station DTM-1, first sold in 1985, was the first highly advanced electronic model of those surveying instruments that incorporated a distance and angle measuring capability developed by Nikon Corporation.
UNSHAKABLE IS UNBEATABLE!

At the heart of the COOLSHOT PRO STABILIZED is Nikon's optical stabilization system, designed to reduce vibrations caused by hand movements (by approx. 80%*) while simultaneously aligning the viewed image with the activated laser beam for faster, more precise—more confident ranging.

PREPARE FOR ANY SHOT. ANY ANGLE.

The COOLSHOT 20i GII golf laser rangefinder provides incredibly fast, accurate distance measurements for every shot—vectored through imaging effects (elevation changes). Featuring Nikon’s Hyper Read Technology to enable club selection when facing a shot with elevation change, COOLSHOT 20i GII eliminates second-guessing on how far uphill or downhill a shot will play.

MORE DISTANCE FOR YOUR GAME.

With eight seconds of single or continuous measurement and First Target Priority to separate the flagstick from the background, the COOLSHOT 20 GII enables easy distance assessment to bunkers, fairway ends, dogleg corners and ultimately the flagstick. This compact, lightweight rangefinder now packs an even more powerful punch.

UNREMOVABLE GLS

All Nikon products include Nikon Inc. limited warranty. Nikon Authorized Dealers and Resellers set their own selling prices, which may vary.

* The effect of STABILIZED: Vibrations of the image in the viewfinder caused by hand movement (sinusoidal waves) are reduced to approx. 1/5 or less. (Based on Nikon’s measurement standards)

** The effect of HYPER READ: Provides quick and stable measurement response, regardless of the distance. Unlike conventional lasers, HYPER READ Technology allows you to get an immediate reading on your display each time you press the power button to ensure you have a stable reference point each time you use your rangefinder. This is especially useful in the heat of the moment.

** The effect of ID TECHNOLOGY: Helps you choose the right club. When ID Slope Technology mode is selected, COOLSHOT PRO STABILIZED and COOLSHOT 20i GII display the slope-adjusted distance (Horizontal distance ± Height), which becomes your guide for how far you should hit the ball.

** The effect of TRU TARGET: COOLSHOT GOLF LASER RANGEFINDERS

More about Nikon products, including technical specifications, features, safety and warranty information can be found at www.nikon.com.
Forestry Pro II becomes a go-to tool for forestry, utility and construction contractors. Forestry Pro II measurement functionality includes the ability to measure actual distance, horizontal distance, height, angle and both the difference in height between two targets (vertical separation) and three-points measurements (the height between two points).

### Specifications

**Forestry Pro II Laser RangeFinder**

- **Model:** 16703
- **Mag.:** 6x21
- **Eye Relief:** 18.0
- **Angular FOV:** 7.5
- **FOV @ 100 Yards:** 39.3
- **Max Range (Reflective):** 1950
- **Max Range (Tree):** 1200
- **Weight:** 6.0
- **Size (LxHxW):** 4.3x2.9x1.7
- **SRP:** $449.95

*Under Nikon’s measurement conditions and reference values.

**LaserForce Rangefinder Binocular**

- **Model:** 16212
- **Magn.:** 10x42 RF Bino
- **Eye Relief:** 16.7
- **Angular FOV:** 6.1
- **FOV @ 1000 Yards:** 320
- **Max Reflective Range:** 1900
- **Close Focus:** 23
- **Weight (W/O Batteries):** 5.8
- **Size (LxWxH):** 5.2x2.8
- **SRP:** $1,199.95

*Under Nikon’s measurement conditions and reference values.

### Features

**Fully Multicoated Optics**

- ED glass
- Long eye relief
- Waterproof
- Nitrogen purged
- Tripod adaptable
- OLED display
- ID technology

**One Mile of Instant Gratification**

Combine Nikon binocular performance with the extreme speed and ranging technology of a 1900-yard laser rangefinder* and you have LaserForce, Nikon’s 10x42 Rangefinder Binocular. Quite simply, LaserForce is the single optic solution for those who depend on both true binoculars for picking out distant subjects and their rangefinder for getting the exact distance without taking eyes away from the target.

- Bright OLED display
- High visibility red display provides ideal contrast on distant targets.
- 4-step intensity adjustment.
- 8-second sustained measurement
- Multi-functional display with backlighting
- Logs 250 measurements in yards, meters or feet

**Two-Points Measurement**

- The Forestry Pro II’s two-point measurement function can be used both for the height of a tree or utility pole when both top and base are visible, or simply for anything in the field of the naked eye. It provides the height between two points directly in both the integral monocular display and on the external LCD.
- The Forestry Pro II’s Target Priority system is capable of reliably picking up and ranging extremely small targets such as distant power lines and small branches.

**Three-Points Measurement**

- If the top/merchantable height or base of the tree is not visible, Forestry Pro II provides a three-point measurement mode that calculates the height between the two points to the closest target distance, to calculate the height between the two points.

**Target Priority Mode**

- The Forestry Pro II’s Target Priority system is capable of reliably picking up and ranging extremely small targets such as distant power lines and small branches.
- The Forestry Pro II’s Target Priority System has two modes: 1st Target Priority and Distant Target Priority.
- 1st Target Priority displays the distance of the closest subject — useful when targeting a tree in front of a forest background.
- Distant Target Priority displays the distance of the farthest subject — useful when targeting a tree deep in the forest.

**NEW!**

Nikon ED glass delivers the utmost in edge-to-edge sharpness, detail resolution and clear, true color images free of flare.

**Turn and Slide Eyecups**

Allow users to adjust the eye-relief for a custom fit — providing a full field of view and maximum comfort during extended periods of use.
**SELECTING A BINOCULAR**

Whatever your intended use, make sure your binocular choice fits your hands.

---

**BIRD WATCHING/NATURE WATCHING**

RIGHT MAGNIFICATION FOR THE SITUATION

For astronomical observation, we recommended wide field of view binoculars with a larger exit pupil that offer a brighter view for night concerts.

**WIDE FIELD OF VIEW**

For concert halls, we recommend magnification of 4x to 8x. If you want to enjoy everything from the entire stage to the artists’ facial expressions, zoom binoculars are a great choice.

COMPACT, LIGHTWEIGHT AND EASY-TO-CARRY BINOCULARS

- **COMPACT, LIGHTWEIGHT AND EASY-TO-CARRY BINOCULARS FOR TRAVELING**
- **COMPACT, LIGHTWEIGHT AND EASY-TO-CARRY BINOCULARS FOR TRAVELING**

---

**CONCERTS/TEASURE**

RIGHT MAGNIFICATION FOR THE SITUATION

- **RIGHT MAGNIFICATION FOR THE SITUATION**

**WIDE FIELD OF VIEW FOR FAST-MOVING ACTION**

For concerts, we recommend wide field of view binoculars to see a wider area at once.

**RIGHT MAGNIFICATION FOR THE LOCATION**

- **RIGHT MAGNIFICATION FOR THE LOCATION**

**OUTDOORS/HIKING/BACKPACKING/CAMPING**

- **OUTDOORS/HIKING/BACKPACKING/CAMPING**

---

**ASTRONOMY/STARGAZING**

- **ASTRONOMY/STARGAZING**

**HIGH PERFORMANCE OPTICAL SYSTEM**

- **HIGH PERFORMANCE OPTICAL SYSTEM**

---

**MUSEUMS**

- **MUSEUMS**

**CONCERTS/THEATER**

- **CONCERTS/THEATER**

**BOATING/FISHING AND NAVIGATION**

- **BOATING/FISHING AND NAVIGATION**

---

**SELECTING THE PERFECT OPTIC TO FIT YOUR NEEDS**

You're about to find out how different quality optics can make in the appreciation and intensity of every rare, special—and even daily—sightseeing experience you encounter.

Widely acknowledged as the global leader in precision optics, Nikon's roots go back to the development of our first binoculars in 1917. Since then, Nikon has continued to build on the know-how of generations of optical and precision technology experts with an enduring passion for quality and innovation. Day in and day out, our products are tested in the world's most demanding environments. Using Nikon cameras and Nikon lenses, photographers around the globe capture moments that no one could otherwise envision.

NIKKOR lenses, Nikon engineers of semiconductor-manufacturing equipment employ our optics to create the world's most advanced instruments. For Nikon, delivering a peerless vision is second nature, strengthened over the decades through constant application. At Nikon Sport Optics, our mission is not just to meet your most precise instrumentation. For Nikon, delivering a peerless vision is second nature, strengthened over the decades through constant application. At Nikon Sport Optics, our mission is not just to meet your most precise instrumentation.

THE MOST AWARDED MONARCH. EVER.

Every precious moment you spend in the field deserves the advantage of extraordinary performance. The MONARCH HG 42mm and 30mm models are award-winning instruments, delivering class-leading optical performance, unrivaled ruggedness and exceptional handling. Engineered throughout to closely match performance specifications of both 42mm and 30mm models alike.

MONARCH HG 42mm earned Field & Stream Magazine’s Best of the Best and Best of the Test awards for 2017.

MONARCH HG 30mm claimed Outdoor Life Magazine’s Editor’s Choice Award for 2019.

Because a binocular of this significance must always perform and do so without weighing you down, MONARCH HG’s body is die-cast magnesium alloy. Providing optimum strength, impact resiliency and weight reduction, the slim body profile is further enhanced with rubberized panels to provide a sure grip in any conditions.

EXPERIENCE BETTER GLASS

With its legendary bloodlines and enhanced optical systems, the MONARCH Series of all-terrain binoculars maximizes every hour you spend in the field, with incredibly bright, high-resolution views, each is engineered to perform from the first rays of light until the very last. Every MONARCH binocular utilizes Nikon’s renowned ED (Extra-low Dispersion) glass and phase correction prisms with durable high-reflective multilayer coatings to deliver a level of performance unlike any other. Combined with an inherent ruggedness and unmatched reputation for success, MONARCH will continue to prove itself as the greatest family in the optics.

MONARCH 7 not only provides exquisite optical performance in a compact body, but delivers a wide field of view, dynamic handling and rugged performance. There is no doubt as to the MONARCH 7’s long-standing All Terrain Binocular heritage.

### Performance Lives On

Nikon's PROSTAFF 7s is a lightweight, easy to hold, all-terrain binocular that features an advanced optical system designed to deliver sharper images. Thanks to its fully multi-coated lenses and Phase-Correction Coated Roof Prism, every model in the PROSTAFF 7s line delivers a bright, clear field of view and maximum comfort during extended periods of use.

### Eyes for Adventure

The PROSTAFF 3s binocular lives up to its namesake with bright, multicoated optics, a wide field of view, long eye relief, and waterproof/fogproof performance. Notably lightweight and compact, the PROSTAFF 3s is the ideal binocular for those looking for rugged, yet performant optics worthy of any adventure.

---

### Nikon PASSION FOR WHAT’S AHEAD

Every Nikon binocular is built to last, giving you the vision you demand. From its tough, weather-resistant construction to its superior optics, ergonomics design and waterproof, fogproof performance, every PROSTAFF binocular is designed to earn your trust in the field. Nikon binoculars can be trusted to still give you the vision you demand, no matter what the conditions. The PASSION FOR WHAT’S AHEAD is what made Nikon binoculars the standard by which all others are measured.
**ACULON A211**

ACULON A211 binoculars feature multilayer-coated optics to deliver a high quality image under a multitude of lighting conditions. These binoculars have a central focus knob, a fully rubber armored body, and turn-and-slide rubber eyecups to simplify use with eyewear.

**Turn and Slide Eyecups**

Turn and slide eyecups allow users to adjust the eye-relief for a custom fit—providing a full field of view and maximum comfort during extended periods of use.

**Multilayer Coating**

Multilayer-coated lenses for brighter images.

**Rubber Armor**

Provides a good grip, wet or dry.

**Aspherical Eyepiece Lenses**

Offer flat viewing field. (Except Zoom Model.)

**Smooth Central Focus**

Makes sharp focus simple.

**Turn & Slide Eyecups**

Perfect for use with or without eyeglasses.

**Compact Roof Prism Design**

Folds to fit in pocket.

**Turn & Slide Rubber Eyecups**

Perfect for use with or without eyeglasses.

**Dual Hinge Design**

To fit in pocket.

**Compact Roof Prism Design**

Fits into pocket or pack.
Marine Binoculars

Fishermen, boaters and mariners of every description should have at least one binocular on board their vessel. Whether you're exploring the flats for surface disturbances on a calm morning of tarpon fishing, checking out the tackle setup of the boat getting all the action or looking for a distant navigation marker, a 7x50 marine binocular is your ticket. Nikon's OceanPro binocular, with integral global compass, is designed for use in both Northern Hemisphere and Southern Hemisphere locations and features 7x magnification and 50mm objectives, to provide optimum viewing even in rough water.

**Rugged All-Terrain Binoculars**

The Action Extreme is a Porro prism with the waterproof and fogproof attributes of other Nikon All Terrain Binoculars. Nikon’s lead-and-arsenic-free lenses and prism systems result in a high quality glass that is also lighter in weight. Each model features quick central focus knob, rubber armored body and multi-click turn and click eyecups.
TRAILBLAZER compact binoculars are offered in 8x25 and 10x25 models, each featuring black rubber armoring, lightweight-yet-durable construction and waterproof, fogproof integrity for performance under any conditions. These little beauties feature a dual-hinge design that allows you to fold it up to fit into a pocket.

### Specifications

- MULTILAYER COATING: Multilayer-coated lenses for brighter images.
- WATERPROOF: O-ring sealed to prevent moisture from entering body.
- FOGPROOF: Nitrogen purged for total reliability against thermal shock.
- ROOF PRISM DESIGN: Folds to fit in pocket.
- SMOOTH CENTRAL FOCUS KNOB: Fast range of focus for quick viewing.
- LONG EYE RELIEF: Provides 15mm or more of eye relief (12mm+ for compacts). Perfect for eyeglass wearers.
- RUBBER-ARMORED COATING: Provides a fast, sure, non-slip grip.
The Perfect Companion for Any Journey

The Travelite compact binocular features enhanced ergonomics and maximized durability. Aspherical eyepiece lenses allow for a viewing field that is uncommonly flat and clear from edge-to-edge, while lightweight carbon-fiber-reinforced body with rubber grip panels gives it a wonderful feel in the hands.

Powerfully Small

The all-new SPORTSTAR ZOOM® binocular is a portable, pocket-sized option that is as versatile as it is compact. With the option of changing magnification anywhere between 8-power and 24-power through its centrally located zoom lever, this binocular will earn its keep in many different circumstances. Turn and slide rubber eyecups simplify use with or without eyewear.

Turn and Slide Eyecups

Allow users to adjust the eye-relief for a custom fit—providing a full field of view and maximum comfort during extended periods of use.
HIGH-POWER PRECISION FOR LAND, SKY OR SEA

Nikon’s waterproof Binocular Telescopes feature massive 120mm diameter objective lenses and proprietary Nikon multicoatings for bright, clear, highly detailed observation in virtually any light conditions. Durable construction and included fork mount (and optional Pillar Stand and Adapter) allow for comfortable and stable high-magnification viewing for myriad applications in the toughest outdoor environments.

  - **SRP**: $1,799.95

**BINOCULARS OF THE CENTURY**

The WX, in 7x50 and 10x50, is a hand-built, wide-angle binocular delivering the wider field of view in Nikon’s 103-year history, making it perfect for highly critical astronomical observation or highly-critical field use. Superior magnification and an incredible Apparent FOV make these your go-to optics for comet watching, stargazing or glassing entire hilltops without panning. Perfectly made-to-order prisms, which offer total reflection on all surfaces for a high light transmission rate. Tripod Adapter and hard case included. Objective lenses with filter threads to accept a 55mm filter (P=0.75) round out its features.

### Nikon SEP Eyepieces

Nikon SEP eyepieces are exclusively designed for PROSTAFF 5 and are ideal for comfortable, detailed observation. Each offers fully multilayer-coated lenses, long eye relief for viewing comfort with eyeglasses and a bayonet mount with lock for easy attachment and release. Water resistant when attached to Fieldscope body.

### PROSTAFF Fieldscope Eyepieces

- Fully multicoated optics
- Nitrogen purged
- Tripod adaptable
- WATERPROOF
- 3x ZOOM RATIO
- Long eye relief
- 60mm-S
- 60mm-S Outfit
- 82mm-A

### PROSTAFF Fieldscopes

- RUGGED, ALL CONDITIONS SPOTTER
- The PROSTAFF 5 Fieldscope offers a wide field of view and superb viewing in all conditions. It is engineered for precision and high magnification capability. Fully multicoated optics provide a sharp, bright image. Super fast bayonet eyepieces make spotting wide areas simple. Easy-to-pack and easy-to-use.

### GRAB IT AND GO

The PROSTAFF 3 Fieldscope Outfit combines quality optics in a compact, rugged package for a take anywhere spotting system. The fully multicoated optics and 16-48x Zoom eyepiece guarantee easy in any situation, and performance. Packaged as an outfit, with compact tripod and carry case, the PROSTAFF 3 Fieldscope is ready for your next outing.
ENHANCE YOUR OPTICS EXPERIENCE
Nikon's TREX™ modular optic carry system adapts to your outdoor style and the conditions. The TREX harness comfortably distributes your optic's weight during long miles afield and is available in 3 variants—FreeStyle, EXO and 360—designed to address the degree of optics protection you seek. All models have a ventilated yoke that integrates a stowaway hydration net to accommodate your own hydration bladder. Please visit NikonUSA.com for more information on the TREX™ Optic Carry System.

TREX™ (FREESTYLE)
At the system's core is the TREX™ Freestyle fully adjustable harness with quick-release attachment cords. This feature-packed harness securely holds your optic close to the chest while running or crawling, yet allows fast access for glassing. TREX™ Freestyle comfortably distributes your optics weight during long miles afield.

TREX™ (EXO)
The TREX™ EXO carry system integrates a lightweight exoskeleton shell that provides incredibly fast access. In conjunction with the harness's quick-release attachment cords that hold the optic securely in place, EXO offers protection of the eyepiece lenses even when the over-flap is not secured. Rear cellphone pocket has built-in microfiber cleaning cloth for keeping lenses smudge-free.

TREX™ (360)
Nikon's TREX™ 360 full protection carry system is a great bet to keep your optic safe, clean and dry. The TREX™ 360 adds a water-resistant, padded optic compartment to shield and secure your glass while also keeping it at-the-ready. The patented closure system keeps the case closed tight to shield against water, snow and dirt. Interior and exterior pockets hold personal gear that requires quick access. Interior net phone pocket has built-in microfiber cleaning cloth. MOLLE webbing system on front allows attachment of other gear, while a hand warmer pocket offers a compartment for a disposable pocket warmer.

SMALL, YET MIGHTY
The Fieldscope 50mm ED is incredibly compact and lightweight perfect for hiking into your pack for all your backpacking adventures. Nikon's ED glass delivers extremely bright, sharp true color images. Straight or angled body models.

FIELDSCOPE ED50 EYEPIECES
Nikon has developed optical eyepieces exclusively for the ED Fieldscopes designed to deliver consistent sharpness and clarity across the entire field of view. Can be fitted to straight or angled body ED50 Fieldscope bodies.

COMPACT OUTDOOR TRIPOD

A packable, ergonomic and stable platform for your spotting scope, binocular or camera that weighs just 32.8 ounces. This four-section aluminum alloy tripod extends from 15.75” collapsed length, out to 49.61” when fully extended. Recommended load capacity for this tripod is 5.5 lbs.

NEW!

ACCESSORIES

16749 COMPACT OUTDOOR TRIPOD $99.95
8228 LENSPEN® PRO KIT $28.95
7072 LENSPEN® $11.95
16141 FOG KLEAR $7.95
8072 MICRO FIBER CLEANING CLOTH $5.95
16142 MICRO FIBER CLEANING CLOTH LARGE $8.95
16416 NEOPRENE BINOCULAR STRAP $29.95
7070 WINDOW MOUNT $54.95
8177 MONARCH/ACULON TRIPOD ADAPTER $25.95
6121 EZ CARRY BINOCULAR HARNESS $27.95
8172 RETRACTABLE RANGEFINDER TETHER $23.95

Wide Field of View
Models that have fields of view of 60° or greater, based on the ISO 14132-1:2002 standard.

Long Eye Relief
Models that have fields of view of 7.50 or greater.

Multiayer Coating
Multiple layers of anti-reflective coating on all air-to-glass surfaces maximize light transmission, brightness and contrast.

Phase Correction Coating
Phase correction coating is applied to the roof (Dach) prism surface to minimize loss of resolution, ensuring high-contrast images.

TRU TARGET
Technology that allows you to switch between First Target and Distant Target modes.

OLED Display
High visibility red display provides ideal contrast on distant targets.

EASY ADJUST BINOCULAR HARNESS

Retractable RangeFinder Tether

NEW!

3D Stabilized

Locks in your personal setting.

High Duty Nitrogen Purged

For fog or rainy conditions, provides clear contrast on distant targets.

EASY ADJUST BINOCULAR HARNESS

Dielectric High Reflective Multilayer Coating

This coated film, the technology that combines high reflectance efficiency, this coating achieves high reflectance across the full visible range, and ensures high color reproducibility.

Silver Prism Coating
Silver-alloy prism coating which features high reflectance is applied to the roof (Dach) prism.

SILVER PRISM COATING

Locks in your personal setting.
