Joey Terrill

Joey is an advertising and editorial photographer whose clients include American Express, Coca-Cola, Disney, Golf Digest, Major League Baseball, Red Bull and *Sports Illustrated*.

He teaches week-long workshops in editorial portraiture and lighting each year at the Summit Photography Workshops and has been a guest presenter at the Brooks Institute of Photography, the Wedding & Portrait Photographers International (WPPI), the Atlanta Photojournalism Seminar and the Sports Shooter Academy.

A workshop he taught some 15 years ago gave him his first opportunity to engage with others who loved photography as much as he did. Finding teaching incredibly fulfilling, he later created the Penumbra Project at his website in order to provide a resource for photographers wishing to explore the wide-ranging aspects of imaging.

At Penumbra he shares the how-to, why-to and behind-the-scenes details of the images he makes and his experiences in the creation of those images.

“ I can't think of another career where you can have such diversity of experience and find yourself in so many different environments. ”
