Capture NX 2: Lesson 3

Have you ever taken an image or a bunch of images only to find out later that there are specks of dust on the picture? Well, with Capture NX 2, you can say "hello" to the **Auto Retouch Brush** and "goodbye" to those annoying spots.

It couldn't be any easier—and in this video, we'll walk you through it.

[Click here](#) to learn about the *Comprehensive Dust Reduction System* built into Nikon D-SLR cameras.
