# Capture NX 2: Lesson 6

So you have a great landscape shot that you've taken—now, just follow these simple steps and you can make that photo even better by really bringing out the colors with the **Optional Picture Control** feature in Capture NX 2.

**Before you begin:** If you'd like to try this for yourself, click on the appropriate link below to download the Landscape Picture Control plug-in:

[Windows download](#) | [Macintosh download](#)

## Install instructions:

1. Click the link to download the installer.
2. Double-click the downloaded file to start the installer.
3. Follow the on-screen instructions to complete installation.

*Note: Picture Control settings can only be applied to [NEF Files](#).*
