Do a Test Run for Important Portrait Shoots

A tip from Nikon Ambassador Dave Black

“ When you have an important portrait shoot and will only have a few minutes to take the photos, do a test run. Set up your lighting, have someone stand in for the subject and get your exposure right. Then when your key subject is there, you'll be ready to shoot and it will only take you a few minutes. ”

Check out [Dave's Ambassador page](#).
