Six Steps to Lighting Magic with Joe McNally

Easy flash photography with great results

Joe McNally, the wizard of flash photography, has created six, two-minute videos in which he quickly and expertly demonstrates the basics of flash photography using built-in flash and camera-mounted Nikon Speedlights.

Each of these videos offers quick and easy tips to make your D-SLR photographs better.

Note: Camera dial configurations and designations can vary from model to model, so please be sure to check your manual for specifics.
