Video Tutorial Series: Getting Started with your Nikon D3300 DSLR

Whether your new D3300 DSLR is the first digital SLR camera you've owned or your newest camera, this video series of six tutorials will help you set up the camera and begin shooting stills and videos quickly. In addition to attaching the lens, putting in the battery and memory card, you'll also learn how to use the Guide Mode, set up the camera to take still photos and video, connect to a compatible smart device with the optional WU-1a Wireless Mobile Adapter and Wireless Mobile Utility app, and transfer all your photos and videos to a computer.
